Bulletin of the Astronomical
Institutes of the Netherlands
Supplement Series

Volume 1

January 1966 - April 1967

CONTENTS

	page
Ponsen and P. Th. Oosterhoff. Five-colour photometry of high-velocity stars and of pulsating variables of different types	3
Raimond. 21-cm observations of two stellar associations in Monoceros	33
O. Lindblad. The velocity distribution of atomic hydrogen in the outer parts of the Galactic System according to the Kootwijk Survey 1953-55	77
Plaut. Variable stars in a field centred at $\ell = 0^\circ$, $b = +29^\circ$ (Field 1 of the Palomar-Groningen variable-star survey)	105
O. Lindblad. Dwingeloo Atlas of 21-cm profiles, Part III, with a representation in Gaussian components	177
A. Muller, E. Raimond, U. J. Schwarz and C. R. Tolbert. Observations of neutral hydrogen at high galactic latitudes obtained with a parametric receiver	213
K. Kwee. Photo-electric observations of the short-period eclipsing binary VW Cephei made in 1957-1959	245
K. Kwee. The international campaign of 1959 on the short-period eclipsing binary VW Cephei	265
D. Fokker, with collaboration of T. Goh, E. Landré and J. Roosen. A collection of spectral diagrams of solar radio type IV events	309
de Jager and L. Neven. Observation of solar line profiles. I. The centre-to-limb variation of profiles of fifty lines in the near infrared solar spectrum	325
Th. Oosterhoff, J. Ponsen and M. C. Schuurman. Variable stars in the galactic window Sagittarius II at $\alpha = 18^{\text{h}}09^{\text{m}}$, $\delta = -27^\circ55'$ (1900)	397
author index	416
subject index	418
